EVALUATION RESULTS and FINAL RANKING

of CATEGORY I & II PROPOSALS

submitted in the Scientific Area

H. Environment and Energy (S.A.8)

Phase 'B'

**"1st Call for H.F.R.I. Research Projects to Support Faculty Members & Researchers and the
Procurement of High-Cost Research Equipment"**

The evaluation process for Category I and Category II proposals submitted under the "**1st Call for H.F.R.I. Research Projects to Support Faculty Members & Researchers and the Procurement of High-Cost Research Equipment**" (Ref. No. 452/01.12.2017, as in force) – **Phase 'B'** in the Scientific Area **H. Environment and Energy (S.A. 8)** has been concluded with the examination of the objections and the re-evaluation of proposals.

Following the Decision of the H.F.R.I.'s Scientific Council (Ref. No. 20966/17.01.2020) regarding the publishing of the final evaluation results, here follow the tables of:

The Final Ranking of the **Category I & II** proposals in the Scientific Area of "Environment & Energy" ([Category I. H1](#), [Category II. H2](#)).

The allocation of proposals to Scientific Areas is based on the statement made by the Principal Investigator during Phase 'A' submission, as this may have been revised during Phase 'A' evaluation procedure, in cases where it was found that the proposal subject falls under a different Scientific Area to the one originally declared.

Each proposal is evaluated on a scale of 0 to 100, according to the Call. In order to be considered for funding a proposal must achieve an overall score above 70.

Please note that in the Final Ranking Table proposals (Category I & II) are listed in a descending score order regarding both the final overall score and the Axis 1 "PI Evaluation"-Criterion 1 (A. Scientific achievements) individual score. In case of proposals with the same score, a priority is given in the proposal achieving a higher score in said criterion, according to the Call and the Evaluation Guide.
