Within its six years of operation, the Hellenic Foundation for Research and Innovation (H.F.R.I.) has consistently pursued its mission and has contributed decisively to the strengthening of research and innovation in the country through the funding of research projects and scholarships of high scientific quality and excellence.

The remarkable progress of H.F.R.I. is confirmed by the findings of two independent evaluations carried out at the end of 2021 (The European Investment Bank and The National Council for Research, Technology and Innovation).

Continuing the support of basic research in Greece, H.F.R.I. has developed its Operational Planning (OP) for 2023, accompanied by a brief report on the financial resources and statistics of H.F.R.I.’s activities since its establishment until 2022.

The planning of the actions is based on the decision of H.F.R.I.’s Scientific Council (SC) (No. 60205/22.12.2022).
Financial Resources

- PIP = Public Investment Programme
- EIB = European Investment Bank
- RRF = Recovery and Resilience Facility (Greece 2.0)
- SNF = Stavros Niarchos Foundation
- NECCA = Natural Environment & Climate Change Agency
