Athens, February 9, 2024

Press Release

Election of new Vice-President of the Scientific Council of the Hellenic Foundation for Research and Innovation

Following the decision of the 173rd Meeting of the Scientific Council of the Hellenic Foundation for Research and Innovation (HFRI), which took place on Wednesday, January 24, 2024, it was unanimously decided to elect Konstantinos Charitidis, Professor of the School of Chemical Engineering of the National Technical University of Athens, as Vice-President of HFRI's Scientific Council for the remainder of the term of office of the Scientific Council members.

Professor Charitidis is the founder and head of the Laboratory of Advanced & Composites, Nanomaterials, Nano-processes and Nanotechnology and a collaborating faculty member of the NCSR "Demokritos." In his extensive research experience in the fields of materials science and technology and nanotechnology, as well as research ethics and integrity, he has been involved in over 70 projects, mainly funded by the European Commission. He has published over 210 scientific papers and is the author and editor of 34 books.

About HFRI

The Hellenic Foundation for Research and Innovation (HFRI) was established (Law 4429/2016) in response to the vital need for supporting Greek scientists. It is a legal person governed by private law, monitored by the Ministry of Development. HFRI aims to promote research and innovation in the country. In particular, it aims to evaluate and fund unrestricted research, namely research activities, research infrastructure and their technological applications, arising from scientific curiosity, without any thematic exclusions or geographical limitations, having scientific quality and excellence as a sole criterion.
