Athens, April 11, 2024

Press Release

Publication of the 4th Call for H.F.R.I. Research Project to Support Postdoctoral Researchers

The Hellenic Foundation for Research and Innovation (HFRI), committed to its mission to support research endeavours in Greece without thematic and geographical limitations, today, on Thursday, April 11, 2024, published the 4th Call for H.F.R.I. Research Project to support Postdoctoral Researchers.

The Action aims to support young PhD researchers in independently overseeing the implementation of selected research projects of high scientific quality and excellence as principal investigators. Specifically, the Action aims to establish the appropriate conditions for utilizing existing scientific potential, attracting young scientists working abroad, and developing new perspectives in the scientific and professional careers of postdoctoral researchers.

Interested Postdoctoral Researchers will be able to submit their Proposals in a scientific field/subfield of one of the nine following Scientific Areas: Physical Sciences, Engineering Sciences and Technology, Life Sciences, Agricultural Sciences – Food Science, Mathematics and Information Sciences, Social Sciences, Humanities and Arts, Environment and Energy, Management and Economics of Innovations from Tuesday, May 14, 2024, at noon (EEST) until Thursday, June 20, 2024, at 1 pm (EEST), exclusively through the H.F.R.I. Web Portal (<https://portal.hfri.gr/>). The total budget for the Call is 9.250.000,00€, and the duration of the projects may vary from 18 to 24 months.

Detailed information and guidelines for participation in the Call, the management and implementation of research projects can be found [here](#).

About HFRI

The Hellenic Foundation for Research and Innovation (HFRI) was established (Law 4429/2016) in response to the vital need for supporting Greek scientists. It is a legal person governed by private law, monitored by the Ministry of Development. HFRI aims to promote research and innovation in the country. In particular, it aims to evaluate and fund unrestricted research, namely research activities, research infrastructure and their technological applications, arising from scientific curiosity, without any thematic exclusions or geographical limitations, having scientific quality and excellence as a sole criterion.
